Social and Academic Abilities in Children with High-Functioning Autism Spectrum Disorders

Nirit Bauminger-Zviely, PhD

"I am grateful to the author for finally giving high-functioning autism spectrum disorders (HFASD) the kind of thorough review and synthesis the field has badly needed. This volume examines theory and research; provides a wonderful description of these unique individuals; and includes complete discussions of treatment approaches and interventions. The book has much to offer to a broad readership. For therapists and educators, it explains how research relates to interventions and provides suggestions for practice. For researchers, it offers a comprehensive literature review and discusses issues to be addressed in future work. For instructors, it will serve as a very useful text in graduate-level courses focusing on meeting the needs of people with HFASD."

—Gary B. Mesibov, PhD, University of North Carolina

"A 'must read' for researchers and practitioners. Bauminger-Zviely provides needed insight into the social, emotional, and academic functioning of children with HFASD, as well as the components of effective interventions. Among the array of books on ASD, this one stands out as an essential and practical guide."

—Connie Kasari, PhD, University of California, Los Angeles

Uniquely comprehensive resource for practitioners, this research-based book addresses both the social-emotional and cognitive-academic challenges faced by children and adolescents with HFASD. The author traces these kids' developmental trajectories and explores their distinct combination of strengths and needs. Effective school-based interventions for overcoming the social isolation and learning difficulties often associated with HFASD are reviewed in depth. **Appendices include concise descriptions of more than 50 relevant assessment tools, plus a detailed, practical outline of the author's empirically supported social intervention model.**

CONTENTS

Introduction

1. High-Functioning Autism Spectrum Disorders: Definitions and Theoretical Explanations

I. Social-Emotional and Cognitive-Academic Profiles

2. Social-Cognitive and Emotional Competence
3. Peer Relations
4. Developmental Changes in Social Functioning
5. Cognitive Strengths and Weaknesses, *with Yael Kimhi*

6. Associated Comorbid Conditions

II. Intervention Models

7. Interventions to Facilitate Social Functioning
8. Interventions to Facilitate Cognitive and Academic Functioning, *with Yael Kimhi*

Conclusion

9. Where Are We Now and Where Do We Want to Go?

Appendices:

- A. Cognitive-Behavioral Therapy Techniques and Settings
- B. Multimodal Cognitive-Behavioral-Ecological Interventions
- C. Assessment Measures to Evaluate Social Characteristics and Intervention Outcomes for School-Age Children and/or Adolescents with High-Functioning Autism Spectrum Disorders

Social and Academic Abilities in Children with High-Functioning Autism Spectrum Disorders

Nirit Bauminger-Zviely

GRADE RANGE: K-12

April 2013, Hardcover, 322 Pages
ISBN 978-1-4625-0942-3, \$40.00

ABOUT THE AUTHOR

Nirit Bauminger-Zviely, PhD, is Associate Professor in the School of Education at Bar-Ilan University in Israel, where she serves as Head of the Special Education Master's Program. She received her doctorate from the University of California, Los Angeles.
