

CURRICULUM VITAE

Michal Zion (Oppenheimer)

PERSONAL DATA

Tel.: Office: +972-3-7384603;
Mobile: +972-50-8807365
Fax No: +972-8-9265476
E-mail: michal.zion@biu.ac.il (office)

EDUCATION

- 1987 Studied towards the degree in biology (B.Sc.) in the Hebrew University, Jerusalem: Graduated with excellence
- 1993 Teaching diploma in biology, School of Education, Hebrew University, Jerusalem
- 1994 Direct doctorate (Ph.D.) program in the School of Medicine at the Hebrew University, Jerusalem
Thesis: The regulation of human *abl* gene expression in Philadelphia positive leukemic cells in comparison to normal cells
Supervisor: Prof. Yinon Ben-Neriah
- 1997 Completed the course for leading teachers in the Biology Teachers' Center, Hebrew University, Jerusalem

ACADEMIC APPOINTMENTS

- 1985-1988 Assistant research in the lab of Prof. Ruth Gallily, the School of Medicine at the Hebrew University, Jerusalem. Researched: The killing of cancer cells by activated macrophages (20 % work percentage).
- 1990-1994 Coordinated the youth advocate microbiology courses at the School of Medicine, Hebrew University, Jerusalem (10 % work percentage).
- 2000-2007 Lecturer at the School of Education, Bar-Ilan University, Member of the M.A. Committee and Coordinator of the Science Education Program and the Biology Teaching Program, The School of Education, Bar-Ilan University (100% work percentage).

- 2005-2006 Sabbatical fellowship, at the Science and Mathematics Education Centre (SMEC), Curtin University of Technology, Perth, Western Australia (100 % work percentage).
- 2008-2015 Senior Lecturer at the School of Education, Bar-Ilan University, Member of the M.A. Committee and Coordinator of the Science Education Program and the Biology Teaching Program, The School of Education, Bar-Ilan University (100% work percentage).
- 2015-to date Associate professor at the School of Education, Bar-Ilan University, Vice Director, School of Education, Member of the M.A. Committee and Coordinator of the Science Education Program and the Biology Teaching Program, The School of Education, Bar-Ilan University (100% work percentage).

PROFESSIONAL FUNCTIONS

International Invited lectures

1. Two plenary lectures and two workshops in the second action of the program "Education and Training 2010" (funded by the European Union as a part of the National Action Plan for the Promotion of the Lisbon Strategy). Nov. 2007.
2. Special seminars for graduate students in the Department of Education, University of Cyprus, Nov. 25-27 2009.
3. A seminar in the Department of Chemistry and Biochemistry, Florida State University (FSU), Tallahassee, USA. Sept. 2012.
4. A seminar in the College of Education, University of Georgia, USA. Sept. 2012.
5. A seminar in the Department of Chemistry, University of Massachusetts, Boston, USA. March 2014.
6. A seminar in the CREATE for STEM Institute, Michigan State University, Lansing, USA. March 2014.
7. A seminar in the Department of Biological Sciences, Western Michigan University, Kalamazoo, Michigan, USA. March 2014.
8. A seminar in Science Symposium with the theme of Engagement in Science taking place at the on the 22nd of October 2016 at The Global Centre in The Hague, The Netherlands.

Academic Affiliations

- AERA - American Educational Research Association
- EARLY - The European Association for Research on Learning and Instruction
- ERIDOB - European Researchers in Didactics of Biology

- ESERA - The European Science Education Research Association
- IOSTE - The International Organization for Science and Technology Education
- NARST - The National Association for Research in Science Teaching

PROFESSIONAL FUNCTIONS

- 1981-1983 Military service as a soldier teacher in the 'Har Gilo' field school, the Society of Nature Protection.
- 1983-1984 Guide in the 'Har Giloh' field school, the Society of Nature Protection.
- 1994-1996 Biology teacher and educator at the Fifth Municipality High School, Tel-Aviv.
- 1996-1997 Head of the Science teachers team at the First Municipality High school, Modiin. Coordinated science studies.
- 1996-2000 Head of environmental studies at the Council for a Beautiful Israel.
- 1997-2000 Teacher and educator at the Fifth Municipality High School, Tel Aviv: Coordinated science studies, taught biology.
- 1998-2001 Led the "Young Researchers" Project in collaboration with the youth activities unit at the Weizmann Institute for Science.
- 1998-2003 Participated in designing the Biomind Curriculum, Israel Ministry of Education.
- 1999-2006 Member of The Biology Curriculum Committee, The Israel Ministry of Education.
- 2000-2003 Coordinated the environmental project and the "Science for Gifted Students" program, at the Second Municipality High School in Modiin.
- 2003-2004 Academic and administrative director of the international MEAL (Mediterranean; Environment; ALN; Learning education project). See website: <http://www.linnet-pro.net/nodeweb.asp?t=24986&selLang=1>.
- 2004- 2006 Member of The Elementary School Science and Technology Committee, The Israel Ministry of Education.
- 2006-2009 Member of The Pronunciation Committee of Youth Activities, Bar-Ilan University, Israel.
- 2001-2013 Member of The Pronunciation Committee of The National Biology Teachers' Center, The Science Education Center, Israel.
- 2012-2015 Member of the Simulation Center Committee, The School of Education, Bar-Ilan University.

- 2011-2016 Academic head of the department internet site, The School of Education, Bar-Ilan University.
- 2004-to date Member of The Biology High School Committee, The Israel Ministry of Education.
- 2011-to date Academic Head of The National Center for Support and Development of Biology School Laboratories.
- 2014-to date Academic Head of Science Education Center, Bar-Ilan University.

AWARDS

- 1984 Award of Excellence, the Dean of Life Sciences, The Hebrew University, Jerusalem.
- 1985 Award of Excellence, the Rector of the Hebrew University, Jerusalem.
- 1987 Wolfe Award of Excellence, The Hebrew University, Jerusalem.
- 2000 Award of Excellence, The Israel Ministry of Education.
- 2001-2004 Guastalla Fellowship, Sacta-Rashi Foundation, Israel. Three year scholarship for promising researcher in mathematics and science education (Peer-reviewed external funding).

GRANTS

1. *Homeostasis at the molecular level* (2000-2003). Funded by The Center for Science Education, The Israel Ministry of Education (340,000 NIS). In this project, computerized interactive tools were constructed for the teaching of a central concept in biology: Homeostasis on the molecular level. The tools incorporated breakthrough scientific discoveries in the field of gene expression control. The interactive tools included: animations, thinking games, a virtual lab, and a library. The learning tools are intended for the use of high school students majoring in biology and support the biology curriculum. See website: www.hs.ph.biu.ac.il.
2. *Ecological inquiry under metacognitive guidance* (2002). Funded by The Pedagogical Secretary, The Israel Ministry of Education (64,000 NIS).
3. *Support group workshops for teachers as a model for pedagogical infrastructure for the teaching/learning of dynamic inquiry* (2003). Funded by The Pedagogical Secretary, The Israel Ministry of Education (64,000 NIS).
4. *Homeostasis in the human body* (2003-2005). Funded by The Center for Science Education, The Israel Ministry of Education (245,000 NIS). In this project, computerized interactive tools were constructed for the teaching of a central concept in biology: Homeostasis of the entire organism. The computerized tools emphasize the

- systemic combination of the human body required for the proper functioning of the organism as a whole. See website: www.hhs.ph.biu.ac.il.
5. *Implementation of ecological and environmental scientific knowledge in the crater region* (2003-2005). The Israel Ministry of Science and Technology (345,000 NIS). Together with MOP Ramon Center.
 6. *Inquiry learning project: "Beyond guided inquiry"* (2004-2005). Funded by The Pedagogical Secretary, The Israel Ministry of Education (49,500 NIS).
 7. *Influence of invasive birds on the local bird biodiversity (migrant and resident) in Israel* (2005). The Israel Ministry of Science and Technology (135,000 NIS). Together with Dr. Salit Kark, Faculty of Life Sciences, The Hebrew University, Jerusalem.
 8. *Development of science and ecological literacy by participation in long term climate geographic and ecological monitoring in the crater region* (2008-2010). The Israel Ministry of Science and Technology (199,985 NIS). Together with MOP Ramon Center.
 9. *Developing environmental literacy through metacognitive instruction and collaborative inquiry* (2010-2013). Israel Science Foundation (258,000 NIS).
 10. *We only have one Earth* (2011-2013). Updating and rewriting of the learning books intended for the use of high school students majoring in environmental science. The Israel Ministry of Education (912,709 NIS).
 11. *We only have one Earth* (2014-2016). Translation to Arabic of the learning books intended for the use of high school students majoring in environmental science. The Israel Ministry of Education (606,720 NIS).
 12. The National Center for Support and Development of Biology School Laboratories (1012-2016). The Israel Ministry of Education.
 13. *Ethics and Environment* (2016-2017). Translation to Arabic of the learning books intended for the use of high school students majoring in environmental science. The Israel Ministry of Education (165,000 NIS).
 14. *Environment and Human* (2016-2017). Translation to Arabic of the learning books intended for the use of high school students majoring in environmental science. The Israel Ministry of Education (87,861 NIS).
 15. The National Center for Support and Development of Biology School Laboratories (1017-2020). The Israel Ministry of Education.

TEACHING EXPERIENCE

Courses in the Bar-Ilan M.A. Science Education Program, School of Education:

1. Introduction to the research of curricula in science education 77-927 (up to 2006)
2. Issues in science education 77-920 (up to 2006)

3. Teaching by inquiry – theory and practice 77-958 (up to 2013)
4. Summary project in science education 77-994 (up to 2015)
5. Biology teaching pedagogy 79-435
6. Biology teaching pedagogy - laboratory 79-436
7. Cognition and Metacognition - 77783

MAIN RESEARCH INTERESTS

1. Inquiry-based learning and teaching
2. Biology education
3. Developing scientific environmental and health literacy
4. Metacognition
5. Homeostasis - a fundamental principle in biology education
6. Computer-based learning environment

ADDITIONAL INFORMATION

- Evaluator of papers in the following peer-reviewed journals: *Science Education*, *Journal of Research in Science Teaching* journal, *Cell Biology Education*, *International Journal of Science & Math Education*, *Computers and Education*.
- Patent Application. Ben-Neriah, Y., Zion, M., Avraham, A. & Ben-Yehuda, D. Assay for monitoring the progress of CML. Yissum Research Development Company of the Hebrew Uni, Jerusalem No. 108978, 15/3/94.

SUPERVISION OF GRADUATE STUDENTS

M.A. Students:

In the past:

1. Semadar Cohen (2005) - Characterizing the conception of inquiry of teachers teaching the Biomind curriculum.
2. Martha Porat (2008) - The Contribution of the Course "Teachers' community for educational and environmental leadership" to develop educators' environmental literacy.
3. Ilana Schanin (2009) - Characterization of teachers' understanding the essence of the inquiry process and the nature of science, while experiencing an open inquiry task.
4. Oshra Aloni (2009) – Science and technology mini-museum at high school: an authentic learning environment for development of scientific knowledge, self-efficacy and positive attitudes towards science among students (together with Dr. Ornit Spektor-Levy).
5. Ravit Sarusi (2011) - Explicit instruction of the skill "Reading complex visual representations": The impact on scientific knowledge, the skill's implementation and transfer among high school girls (together with Dr. Ornit Spektor-Levy).
6. Yael Gilat (2012) - The impact of learning with laptops in 1:1 classes on the development of learning skills and information literacy among middle school students (together with Dr. Ornit Spektor-Levy).
7. Miada Daboor (2012) - Implementing the new curriculum in Chemistry: achieving goals in developing the skills of reading a scientific text and difficulties of the experimental teachers (together with Dr. Zvia Fund).

8. Ety Rimerman Shemuali (2013) - Dynamic inquiry performance, metacognitive awareness and understanding the nature of science of teachers who experienced open inquiry process.
9. Raaya Israeli (2014) - The effect of system thinking on students' comprehension of the biological fundamental principle - homeostasis.
10. Odelya Hazut (2016) - Contribution of metacognitive awareness and collaborative learning to dynamic inquiry performances and student- teacher interactions as they reflected within on line forums.

Being supervised today:

11. Hagit Isaschar - Attitudes of high school students who had experienced guided inquiry learning in comparison to students who had experienced the open inquiry learning regarding the nature of science and nature of inquiry process upon graduation and over time as adults.
12. Amos Gueta - Contribution of metacognitive support and collaborative learning to students' inquiry performances within open inquiry-based learning.
13. Liel Rot - The effect of metacognitive instruction and collaborative learning on dynamic inquiry performance and metacognitive awareness expressed in hybrid discourse.
14. Shifa Wated -The contribution of the 'Intergenerational sustainability leadership' project to the development of environmental literacy of the community
15. Liron Schwartz - The Effect of Metacognitive Guidance and Collaborative Learning on a Motivational Dialog between Teacher and Student during Environmental Inquiry-based Learning Process Through On- line Asynchronous Forums

Ph.D Students:

In the past:

1. Tova Michalsky (2004) - The Effects of metacognitive guidance within asynchronous learning networks on inquiry learning processes (together with Prof. Zemira Mevarech).
2. Irit Sadeh (2008) - Development of basic and dynamic inquiry skills, and knowledge types, during open-inquiry learning in comparison to guided-inquiry learning.
3. Dorit Bar (2008) - Influence of teaching that integrates dynamic or static visual models on the development of an understanding of the transformation levels in the subject of "Synthetic Polymers".
4. Sara Klein (2008) - Characterization of the comprehension of the biological fundamental principle 'homeostasis', learned explicitly with computerized tools.
5. Idit Adler – (2015) - Developing metacognitive awareness and environmental literacy through metacognitive instruction embedded within collaborative inquiry learning (together with Prof. Zemira Mevarech).
6. Michal Nisim (2016) - The effects of aquatic activities during early childhood on sensory-motor, language and perceptual development compared to motoric activities in land (together with Prof. Zemira Mevarech).
7. Moria Mor (2016) - The impact of metacognitive instruction and explicit system thinking teaching on understanding the biological fundamental principle - homeostasis.

Being supervised today

8. Pirchi Waxsman - The correlation between eye movements and cognition in graph comprehension.

9. Hagit Cohen - The effect of metacognitive awareness and media literacy on the development of drinking oriented nutritional health literacy.
10. Tal Berger – Learning in a 1:1 classroom with personal laptops - its unique features and effect on students' attitudes, abilities, acquisition of 21st century skills and comparison to different models of computing (together with Dr. Ornit Spektor-Levy).

Post-Doctorates:

1. Dr. Michaela Slezak
2. Dr. Ornit Spektor-Levy
3. Dr. Noa Avriel Avni

III. PAPERS PRESENTED AT SCIENTIFIC CONFERENCES

Articles Published in Refereed Conference Proceedings

1. **Zion, M.**, Link, E., & Agrest, B. (2002). Dynamic inquiry-a recipe for a learning inquiry process full of surprises. The 13th Conference of the Israeli Educational Research Organization, October 2002, Bar-Ilan University, Ramat-Gan, Israel (Hebrew).
2. **Zion, M.**, & Slezak, M. (2002). Dynamic inquiry provides teachers functioning as guides for autonomous learners. The 2nd International Conference on Science Education. November, 2002, Nicosia, Cyprus.
3. **Zion, M.** (2012). Teaching inquiry: A Nationwide Challenge for Both Teachers and Researchers. In J. Settlage & A. Johnston (Eds.), *Proceedings of the Science Education at the Crossroads Conference* (pp. 78-79). Providence, RI. Available online at <http://www.sciedxroads.org/proceedings 2012.html>.
4. Yarden, A. & **Zion, M.** (2016). Meaning of the term "research in didactics of biology". In Tal, T. and Yarden, A. (Eds.), *Proceedings of the 10th Conference of European Researchers in Didactics of Biology*, (197-202). Haifa, Israel.

Papers Presented at Scientific Conferences

1. **Zion, M.** (2003, March). Dynamic inquiry allows flexible and thought provoking inquiry learning. Paper presented at the NARST (National Association for Research in Science Teaching) Annual International Conference – "excellence in science teaching for all", Philadelphia, USA.
2. **Zion, M.** Michalsky, T & Mevarech, Z. (2003, August). The effects of metacognitive guidance within ALN (Asynchronous Learning Network) on the inquiry learning process (with). Paper presented at the ESERA (The European Science Education Research Association) Conference – "Research and the Quality of Science Education", Noordwijkerhout, The Netherlands.
3. **Zion, M.** Michalsky, T & Mevarech, Z. (2004, April). Developing scientific thinking and inquiry skills by solving problems within ALN discussion groups. Paper presented at the NARST (National Association for Research in Science Teaching) Annual International Conference - "excellence in science teaching for all", Vancouver, Canada.
4. Michalsky, T & Mevarech, Z. & **Zion, M.** (2004, July). Who benefits from metacognitive instruction and under what conditions? Paper presented at the first meeting of the EARLI (European Association for Research on Learning and Instruction) SIG (Special Interest group) on metacognition, University of Amsterdam, The Netherlands.
5. Mevarech, Z, Michalsky, T & **Zion, M.** (2004, December). The effects of metacognitive instruction embedded within an asynchronous learning network on

- scientific inquiry skills. Paper presented at the international conference to review research on Science, Technology and Mathematics Education, UNESCO, Goa, India.
6. Mevarech, Z, Michalsky, T & **Zion, M.** (2005, April). The roles of metacognitive instruction in developing students' science literacy under different learning environments. Paper presented at the AERA, Annual Meeting, Montréal.
 7. **Zion, M.** Michalsky, T & Mevarech, Z. (2005, Nov.). The effects of metacognitive instruction embedded within an asynchronous learning network on inquiry and metacognitive skills. Paper presented at the WASEA – The Western Australian Science Education Association Annual Forum, Western Australia.
 8. **Zion, M.**, Cohen, S. & Amir, R. (2006, April). The dynamic inquiry teaching spectrum. (with S.). Paper presented at the NARST (National Association for Research in Science Teaching) Annual International Conference, San Francisco, USA.
 9. **Zion, M.** (2007, August). Online forums scaffold students experiencing open and guided inquiry process. Paper presented at the ESERA (The European Science Education Research Association) International Conference, Malmö, Sweden.
 10. Sadeh, I. & **Zion, M.** (2007, August). Development of dynamic inquiry skills during open-inquiry learning in comparison to guided-inquiry learning. Paper presented at the ESERA (The European Science Education Research Association) International Conference, Malmö, Sweden.
 11. Sadeh, I. & **Zion, M.** (2008, Sep). Development of dynamic inquiry skills during open-inquiry learning in comparison to guided-inquiry learning. Paper presented at the ERIDOB (European Researchers in Didactics of Biology) International Conference, Utrecht University, the Netherlands.
 12. Klein, S. & **Zion, M.** (2008, Sep). Characterization of the comprehension of the biological fundamental principle 'homeostasis', learned explicitly with computerized tools. Paper presented at the ERIDOB (European Researchers in Didactics of Biology) International Conference, Utrecht University, the Netherlands.
 13. **Zion, M.**, & Schanin, I. (2009, Sep). Characterizing performances of teachers who had experienced a practical dynamic open inquiry process. Paper presented at the ESERA (The European Science Education Research Association) International Conference, Istanbul, Turkey.
 14. **Zion, M.**, & Sadeh, I. (2010, July). Open inquiry – performances and team spirit. Paper presented at the ERIDOB (European Researchers in Didactics of Biology) International Conference, Braga, Portugal.
 15. Adler, I., **Zion, M.** & Mevarech, (2013, April). Contribution of metacognitive instruction embedded within an open inquiry-based learning to metacognitive online discourse. Paper presented at the NARST (National Association for Research in Science Teaching) Annual International Conference, Puerto Rico.

16. Nissim, M., Ram Tsur, R., **Zion, M.** & Z. Mevarech (2013). The effects of aquatic motor activities on motor and language development during early childhood. Paper presentation. FENS Featured Regional Meeting. Prague, Czech Republic.
17. Ram-Tsur, R., Nissim, M., Dotan Ben-Soussan, T. **Zion, M.** & Mevarech, Z. (2013). A comparison of the effects of aquatic and of on-land motor activities on motor and language development during early childhood. Paper presented at the Conference on Education and Evaluation (CEAE 2013). Beijing, China.
18. **Zion, M.**, & Yarden, A. (2014). Should biology be taught in high school? Implications for higher education and the Israeli society. Paper presented at the Ilanit International Conference of the Federation of the Israel Societies for Experimental Biology, Eilat, Israel.
19. Adler, I. **Zion, M.**, Mevarech, Z. & Sadeh, I. (2014, July). A Metacognitive-based Instructional Model Designed to Develop Environmental Literacy. Paper presented at the ERIDOB (European Researchers in Didactics of Biology) International Conference, Haifa, Israel.
20. Mor, M., **Zion, M.**, Agrest, B. & Mendelovici, R. (2014, July). The impact of combination of metacognitive awareness instruction and system thinking. Paper presented at the ERIDOB (European Researchers in Didactics of Biology) International Conference, Haifa, Israel.
21. **Zion, M.** (2014, July). Symposium 2: Special ERIDOB symposium: Current issues in biological education research at the ERIDOB (European Researchers in Didactics of Biology) International Conference, Haifa, Israel. One of the discussants.
22. Adler, I. **Zion, M.**, Mevarech, Z. (2015, Feb.). Embedding meta-cognitive, support within inquiry-which kind, when and why? The Learning Sciences International Conference, Jerusalem, Israel.
23. Adler, I. **Zion, M.**, Mevarech, Z. (2015, Marc). The effect of individual and social metacognitive support on students' involvement in the inquiry process, as expressed by their online dynamic inquiry performances. The first international self-regulated learning (SRL) workshop, Bar Ilan, Israel.
24. Adler, I. **Zion, M.**, Mevarech, Z. (2015, August). The Effect of Metacognitive Support, Embedded within an Open Inquiry Process, on Students' Inquiry Outcomes, Evaluated by Students' Expression of NOS, Procedural Understanding and Scientific Practices. Paper presented at the ESERA (European Science Education Association) 11th Conference, Finland.
25. Berger Tikochinski, T., **Zion, M.**, & Spektor-Levy, O. (2015, July 6-8). Do Students Really Like to Learn in 1:1 Laptop Classes? Students' views and retrospective views of graduates. International Association for Cognitive Education and Psychology (IACEP). Harokopio University, Athens, Greece
26. **Zion, M.**, & Schwartz, R. (2015, August). Does a dynamic open inquiry course enable in-service science teachers to improve their Nature of Science understanding? Paper

presented at the ESERA (European Science Education Association) 11th Conference, Finland.

27. Berger Tikochinski, T., **Zion, M.**, & Spektor-Levy, O. (2016, February). Up and down: Trends in students' perceptions about learning in a 1:1 laptop model- A longitudinal study. Paper presented at the 11th Chais Conference: Learning in the Technological Era: Study of Innovation and Learning Technologies, Open University, Raanana, Israel.
28. Cohen, H. & **Zion, M.** (2016, Sep.). A Metacognitive Guidance to Increase Drinking-Related Nutrition Literacy-DNL. Paper presented at the ERIDOB (European Researchers in Didactics of Biology) International Conference, Karlstad, Sweden.
